

YUCI HYDRAULIC

KOMATSU SERIES PUMPS

Where there are hydraulic transmissions
where there are YUCI products

INTRODUCTION

Company overview

Yuci Hydraulics Co., Ltd.(it was Yuci Hydraulics Plant) had introduced the technology and processing equipment for manufacturing hydraulic components from Yuken and Spindle Companies of Japan in 1965, and now has become a large base for

manufacturing and building hydraulic components and power packages with variety of products, advanced equipment and marketing network spread all over China. It set up one of state level technical centres of 100 large big machinery building enterprises in China, and 21 distributors with computer network. In 1998, the quality control system of the company was in conformity with ISO9001:94 standard.

The main customers include industrial Application, Mobile Machineries, Port and Ship, Water Conservancy Project and other industrial fields.

The main products including:

Yuken series pumps and valves, part, Vickers series Part, Komatsu series Part, CATERPILLAR series Part, Atos series Vane, Yuci series part and all kinds of Hydraulic system. As well High performance gear pumps, middle-high Pressure Vane pumps and gear pumps, Pin Type Vane Pumps etc.

BASIC INFORMATION

Company name	Yuci Hydraulics Company Limited
Date of establishment	1965
Enterprise type	State
Total registered capital	RMB 250 million
Total area / workshop area	290000 m ² / 180000 m ²
Number of employees	2600
Engineer & Technicians	598
Total sales 2008	RMB 650.00 million
Local / Export (%)	51 / 49
Address	Factory: 256 jingwei Road, Yuci District, Jinzhong, Shanxi, China Int'l Dept.:503 room,405 Dantu Road, Shanghai, China
Contact person	Joshua Liu
Tel	+86-13621692282 +86-021-65373362,65373369
Fax	+86-02165851215
E-mail	Joshua@yuci-hyd.com.cn
Website	http://www.yuci-hyd.com.cn/

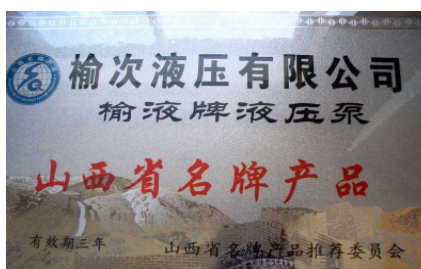

PRODUCTS & MARKETS

Product type	Both standard product and Customised product
Main products	Hydraulic products including Vane pumps, Gear pumps, Cylinder(Accumulator).Hydraulic system and hydraulic casting (The details please check the appendix)
Process	Smelter, Lost wax casting, Centrifugal casting, Cold drawing, Milling or Grinding, Machining, Testing etc.
Markets	One half local market, one half foreign market

QUALITY ASSURANCE & QUALITY CONTROL

Certificate	ISO 9001:2000
Main Inspection Method	Direct Reading Spectrometer Ultrasonic Testing Eddy Current Testing Thermal Fatigue Testing Machine
Pre-Inspection raw material	Yes
Inspection flow	From raw material until Packing Finish

Enterprise Honors and Awards

KOMATSU SERIES PUMPS
